

Your Support Opens the Door to New Lives

In 2017, more than 3,000 women and children benefited from the refuge and resources offered at 360 Communities Lewis House shelters in Eagan and Hastings.

360 Communities Lewis House is a safe haven for women and children fleeing domestic abuse and sexual assault. Since Lewis House first opened its doors in 1979, more than 86,000 survivors of sexual and domestic violence have benefited from its safety, support and advocacy services. Trained advocates offer emotional support, referrals to community resources, and help in navigating the court system.

In addition to meeting immediate needs, the Lewis House shelters provide important domestic violence outreach services, sexual assault services and violence prevention education. This work supports 360 Communities mission to achieve violence-free homes, ensure school success and promote self-sustained success.
